Proficient in Bootstrap, Python, C Language, Python, DBMS, MS Office, Figma, Canva and other technologies. Will graduate in 2023.

PERSONAL PROJECTS

- Project Name:** iChat Application
Duration of Completion: 05/2021
Description: iChat is a messaging application that allows users to communicate with each other in real-time. The application will have features such as text, and the ability to create and join group chats. The application will be available for browser, and will have a user-friendly interface that is easy to navigate.
Technologies Used:
 - Front-end: HTML, CSS, Js
 - Back-end: Node.js and a Java Script library Socket.10
- Project Name:** Tic Tac Toe Game
Duration of Completion: 04/2020
Description: Tic Tac Toe is a classic game in which two players take turns marking a grid of 3x3 squares, with one player using the "X" symbol and the other player using the "O" symbol. The player who succeeds in placing three of their symbols in a horizontal, vertical, or diagonal row wins the game.
Technologies Used:
 - Python programming language
- Project Name:** Car Parking Slot Booking App
(College Project)
Duration of Completion: 2022-2023
Description: The Car Parking Slot Booking App allows users to reserve parking spots in advance at a specific location. Users can search for available parking spots based on location, date, and time, and can then book a spot for a specified duration. The app will also provide features such as push notifications for booking confirmations and reminders, the ability to cancel or modify bookings, and a payment gateway for users to pay for their parking spot.
Technologies Used:
 - Front-end: Android UI Framework
 - Back-end: Java
 - Database: Firebase
 - Payment Gateway: Razorpay Integration
 - Maps: Google Maps API, GeoApify API
 - Push Notifications: Firebase Cloud Messaging (FCM)
 - Additional libraries: Google Cloud Platform, FirebaseUI Realtime Database

INTERESTS

- Learning new tech skills
- Problem solving
- Novel Reading
- Listening music
- Research

CERTIFICATIONS

- freeCodeCamp - Front End Development Libraries
Developer Certification, representing approximately 300 hours of coursework.
Issued: June 20, 2023
- freeCodeCamp - Responsive Web Design
Representing approximately 300 hours of coursework.
Issued: November 12, 2021
- 2nd rank in TECHVAGANZA-V10.0 event 2019 "**what an Idea**" @HRIT, Ghaziabad, UP
Issued: October, 2019
- Career Edge - Knockdown the Lockdown, Communication Skills : TCSiON
lifelong learning
Duration: 27 May 2020 - 15 June 2020
- TCS iON Career Edge - Young Professional
Duration: 27 Oct 2021 - 10 Nov 2021

ACHIEVEMENTS

- 5 Star @Hacker Rank in Python
-
